The BJMP, valued as an institution, enhances public safety by providing globally acceptable services for effective and efficient humane safekeeping and development of inmates.

We commit to:

- Enhance the safekeeping and development of inmates in all district, city and municipal jails by achieving the ideal manpower complement and improving the status of jail facilities.
- Develop inmate potential through quality inmate welfare and development programs; strengthen cooperation with service providers; and encourage involvement of inmate families in the development process.
- Ensure that the quality services are delivered to the client thru judicious utilization of resources.
- Maintain and improve the database on jail infrastructure and inmate profile.
- Continually develop highly competent and skilled BJMP personnel as public servants, God-centered, community-responsive, trusted and respected by the people.
- Provide suitable working environment and logistical resources to enhance personnel performance.
- Faithfully comply with applicable laws, rules and regulations.

We will continually improve our systems and processes to provide the best possible service while optimizing our resources.
